To Whom it May Concern,

I think that Microsoft should not be allowed to abuse the antitrust laws or force consumers to use their own internet browser because there must be competition in the market, otherwise Micosoft will not be motivated to produce a product that is of good quality. It is unfair to take away the consumers right to choose the product they prefer and it is not beneficial to our countries economy to lose its competative edge by permitting monopolistic companies to exist.

sincerely,

Lauren Kosty huesofgreen@yahoo.com
